Sustainable CT & Energy

Section 7

- 7.1 Benchmark & Track Energy Use
- 7.2 Reduce Energy Use Across All Municipal Buildings
- 7.3 Achieve High Energy Performance for Individual Buildings
- 7.4 Increase Use of Renewable Energy
- 7.5 Develop a Municipal Energy Plan
- 7.6 Install Efficient Exterior Lighting
- 7.7 Implement a Community Energy Campaign
- 7.8 Benchmark Energy & Water Use for Multifamily Housing

2022 Climate Leader Designation

- 140 points needed

What is Strategic Energy Management?

Through SEM,
we work together to...

Activate energy teams to find
and complete energy saving
projects

Track energy performance at
your site

Engage employees to save
energy every day

7.2, 7.3,
7.4, 7.5,
7.6

7.1,
7.3, 7.8

7.5,
7.7

SEM Participant Prioritizing Energy-saving Opportunities

Via the SEM program, you will receive...

Energy Efficiency & Management Training
at Peer-to-Peer Workshops

Coaching & Technical Support

Treasure Hunts

Cloud-based Energy Performance Tracking

Energy Sensei

Delivery at scale

Track energy savings, manage energy models, and report on energy project opportunity registers across your SEM portfolio.

Connect actions to results

Implementors use Energy Sensei to clearly document completed energy projects and record program influence.

Administrators strengthen the M&V process with intuitive tools to manage energy models and non-routine adjustments from start to finish.

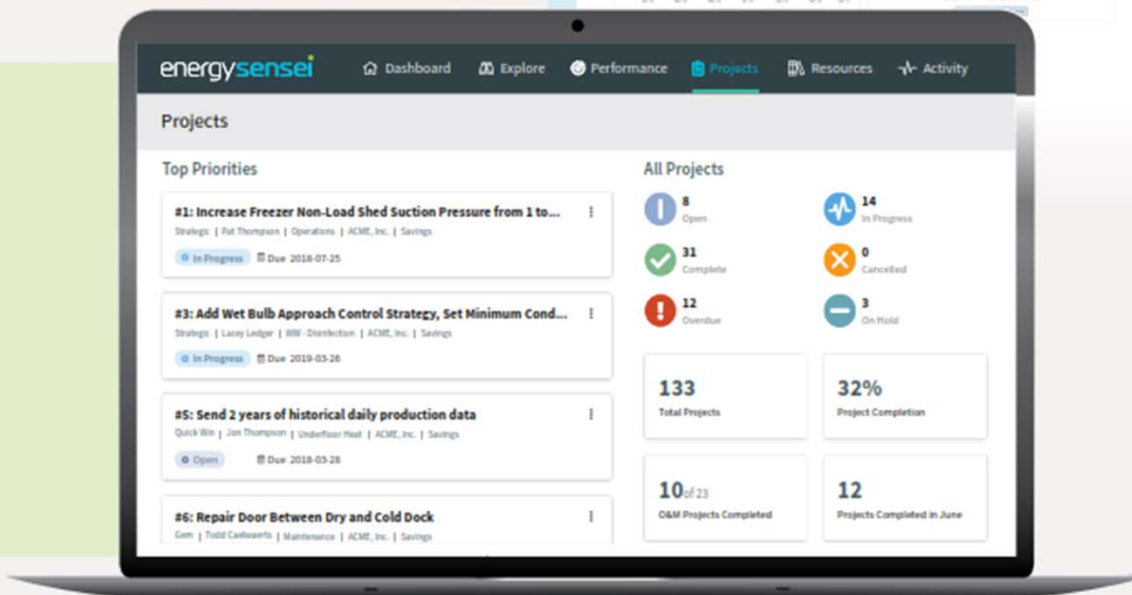

Participant-focused

Put energy performance reporting and intuitive opportunity registers into the hands of your participants, helping them save more energy sooner.

Voluminous data

Handle AMI data at scale. Energy Sensei connects to many data sources and can deploy custom connections via API or sFTP.

Many contributors

Keep your program organized. Implementers, participants, and evaluators are given access tailored to their role, and program managers can roll up data to a full portfolio or drill into a single site. No more hunting for spreadsheets, version issues, or insecure file sharing.

How much time does this take?

Workshops	<ul style="list-style-type: none">• 5-6 workshops (2-4 hrs each)• Approximately 2 people from your site.
Treasure Hunt	<ul style="list-style-type: none">• 1 full day at your site.• Your team and our team.
Energy Team Meetings	<ul style="list-style-type: none">• Regular meetings for your team to stay focused on progress.• You decide the frequency (typically biweekly or monthly).
Energy Projects	<ul style="list-style-type: none">• Complete the O&M projects you agree to prioritize.• Typically found during the treasure hunt.

Cash Incentives

# of Low/No Cost Measures Completed	Incentive
1-2	\$1,000
3-5	\$2,500
6+	\$5,000
