Actions Implemented

Each approved action and supporting documentation for which Darien was approved for in 2022 appears below. Please enjoy this opportunity to view and learn from the information and materials provided.

Notes: Submission content was created by Darien, and Sustainable CT makes no claims, promises or guarantees about the accuracy, completeness, or adequacy of the submission, beyond that an individual reviewer approved at least some elements of the action for certification. Further, standards for actions below may have changed, and the documentation listed may no longer satisfy requirements for that action. Finally, approved actions here may include some documents and descriptions in support of action elements that were not approved, in addition to elements that were approved. In preparing your own application, please rely only on the action write-ups for the current certification year to guide your submission. Please contact info@sustainablect.org with specific questions.

WORD: [ACTION 3.1.1A WATERSHED EDUCATION.DOCX](#)

Documentation Details: 3.1.2a (A): An overview of the Unified Water Study from CFE/Save the Sound's website. Note the Town of Darien listed as a participant (green star), monitoring the following water bodies: Darien Harbor, Cove Harbor, Scott Cove. 3.1.2a (B): "Presentation by William Cavers, Coastal Commission," p. 1 is an overview of the Unified Water Study; the Board unanimously approved the Advisory Commission on Coastal Waters to organize and manage Darien's participation in the Save the Sound Unified Water Study. 3.1.2a (C): Explanation of how data obtained via the Unified Water Study can inform local policy. William Cavers, Chairman Darien Advisory Commission on Coastal Waters, Summer 2019. 3.1.2a (D): the program was again expanded in 2019 to include monitoring of additional water bodies - Scott/Zieger's Coves 3.1.2a (E): Educational outreach on the Unified Water Study via a local magazine. Article written by William Cavers, Chairman Darien Advisory Commission on Coastal Waters. 3.1.2a (F): Announcement that the the 6th season is underway to record the water quality of Darien Harbor, Cove Harbor, and Scott/Ziegler/Fish Islands area. 3.1.1a: This one page document incorporates the links to videos of the presentations as well as the time in the presentation at which the relevant comments are made.

Partners: 3.1.2a (community based research): Darien's participation in the Unified Water Study was initiated by and is conducted by the Chairman of the Darien Advisory Commission on Coastal Waters, and was approved by the Darien Board of Selectmen in February 2017. Water sampling is conducted by town volunteers and results are shared with the Darien Department of Health and Darien Board of Selectmen. Several partners play a critical role in this project and include: 1) CFE/Save the Sound oversees the Unified Water Study in which approximately two dozen other municipalities in New York and Connecticut participate; it also owns the monitoring equipment used; 2) The Darien Boat Club provides the motor boat used by volunteers to monitor water quality; 3) The Darien Nature Center provides space where monitoring instruments can be calibrated and stored (note: although this arrangement still exists, during COVID-19 equipment was stored in the basement of one of the volunteers. 4) Volunteers from Darien Men's Association and the Darien Land Trust.

Additional Information: 3.1.2a: There are currently 4-6 volunteers who participate in this program. Although high school students were encouraged to assist in the program's early years, none currently do. The time and commitment required by this program is substantial: volunteers go out every two weeks from May through October, usually very early on a Saturday morning, and are out on the water for 3-4 hours at a time. Calibrating the equipment and entering the data requires another 2+ hours.

3.4 Develop an Open Space Plan

15 Points

Approved Information: 3.4.4.b. Increase preserved open space in your community. (10 points) 3.4.4.c. Improve open space parcels (5 points)

The plan included the planting of trees, shrubs, and perennials in three locations on the sixteen-acre property providing form, habitat, food, and included pollinator friendly plantings. 3.4.4.c Receipts indicating \$27,712.50 spent on the landscaping project at Highland Farm

Partners: 3.4.4.b Emergency Management Director 3.4.4.c Parks and Recreation

3.6 Manage for Drought and Municipal Water Use

10 Points

Approved Information: 3.6.2: Pass a Drought Restriction Ordinance (10 points)

Supporting Documentation:

PDF: [3.6.2: CODE OF ORDINANCES TOWN OF DARIEN, CT, CHAPTER 34, ARTICLE II](#)

Documentation Details: 3.6.2 (A) Sections 34-21 through 34-25 of Article II (Water Shortages) outline the Town's response in the case of a water-related public emergency.

Partners: 3.6.2 (Pass a drought restriction ordinance): None.

Additional Information: 1) Changes to town ordinances are made by the the town's legislative body, the Representative Town Meeting. 2) While there is not a formalized policy to use WaterSense-labeled products, emails from both the town administrator and the BOE facilities director state that it is "best practice" to do so; all new construction and replacements are made with these products. 3) The town does not have a formalized, written, Drought Communications Plan, but in practice does what such a plan would outline: both voluntary and mandatory drought restrictions declared by Aquarion and/or the governor are communicated to residents via the means described above: announcements at publicly-held (and recorded) Board of Selectmen meetings, publication under "news" on the town website, notice in the town's bi-weekly (electronic) newsletter, various town social media accounts, other local online news sources and, when appropriate, Code Red. In addition, the Department of Health page on the town website contains a link to Aquarion for water-saving tips and another link to the CT Water Planning Council's "Drought Information Center." The Health Department also posts regularly on its own social media accounts.

Documentation Details: 3.12.1 (A). Enhance pollinator pathways by increasing residents' understanding of the importance of pollinators and practices that they can adopt to help (contains several links). 3.12.1(B). Sign

describing the native plants installed at "Habitat Hill," how they enhance pollinators' habitat and the environment. 3.12.1(C). Discussion and vote taken by the Parks & Rec Commission to enact a multi-year maintenance program at Casey Field, located at Cherry Lawn Park, solely with organic materials to determine feasibility of phasing out practice of using chemicals in other town parks. 3.12.1(D). The Darien Pollinator Pathway has a robust following on Instagram; posts frequently about the importance of pollinators, cautions residents against using pesticides and other chemicals on their lawns, encourages installation of native species, conversion of some lawn to a more natural state, etc. 3.12.1(E). One example of a multitude of posts by the Darien Advisory Committee on Sustainability encouraging residents to adopt pollinator-friendly habits. Posts are generally replicated across the Committee's other social media accounts (Twitter, Instagram). 3.12.2(A). An overview of pollinator gardens/habitats on town property or established in collaboration with the town. 3.12.2(B). Photo of Habitat Hill, a pollinator garden located on either side of the staircase leading from Town Hall to the Mather Center. 3.12.2(C). Article in local paper publicizes the pollinator garden installed at Darien Town Hall. 3.12.2(D). Pollinator garden installed near the Veterans' Memorial in front of Darien Town Hall. 3.12.2(E). One of two gardens on the southbound side of the Noroton Heights Railroad Station that, as funding permits, the Beautification Commission has been transitioning to native plants. 3.12.2(F). Article in local magazine by Darien Pollinator Pathway co-chairs describes how they transformed a grassy/weedy area at Tilley Pond Park into a pollinator garden. 3.12.2(G). Press release announcing Tree Planting Day at Darien Town Hall, planned for 10/2/21; also posted on the town website under "news." 3.12.2(H). Photo taken July 2022 shows approximately 8 of the 30+ native trees that were planted at Darien Town Hall on 10/2/21. Wire cages protect trees as they are established; this lawn area of town hall is being treated with organic products only. 3.12.2(I). Screenshot from Darien Pollinator Pathway's Instagram account showing some of the many volunteers who helped plant native trees at Cherry Lawn Park on June 4, 2022. 3.12.2(J). Article in local paper announcing the award of a \$92K state grant used to install a series of pollinator gardens at the 16-acre Highland Farm. 3.12.2(K). Screenshot from the landscape architect's Highland Farm Improvement Project plans, dated 7/21/21; pollinator gardens are indicated by green arrows. Plan also shows proposed location of several native trees. 3.12.2(M). Screenshot from Darien Library's Instagram account publicizing its pollinator garden. Posting is from June 2021.

Partners: 3.12.1 (provide education): Darien Library: town funds the Library's operating expenses. Darien Nature Center: located on town property. Darien Pollinator Pathway: an entity that grew out of several town organizations, including the Nature Center and Library; the DPP works closely with the Beautification Commission, Parks & Recreation Commission and staff, and the Department of Public Works. 3.12.2 (create pollinator gardens): Garden Club of Darien: provided funds for the pollinator garden (Veterans' Memorial Circle) in front of Darien Town Hall. Commuter Action Group: provided funds to help install pollinator gardens at the Noroton Heights Railroad Station (southbound side). One Tree Planted: non-profit provided two separate grants to the Darien Pollinator Pathway for planting native trees and shrubs.

Additional Information: A few times a year the Darien Pollinator Pathway also holds a native plant sale which is advertised via social media and email. Residents are able to purchase native plants at very reasonable rates and they generally sell out very quickly! This is just one more way that residents are coming to understand the importance of - and adopting - native plants. For the past few years a number of high school seniors have chosen to work with the Darien Pollinator Pathway during their "internship" month of May (four in 2021; six in 2022). These interns work full days, every day, and while they are helping to remove invasive species, plant trees and shrubs, add mulch to beds, etc., they are learning a lot - which they reportedly share with their families. This year's group enjoyed their work so much that most of them came back to help with the tree planting event at Cherry Lawn on June 4th even though the internship had ended!

4. Vibrant and Creative Cultural Ecosystems

4.1 Inventory Tourism and Cultural Assets

Supporting Documentation:

PDF: [REGULATION AMENDMENT 1-2019.PDF](#)

PDF: [REGULATION AMENDMENT 3-2021.PDF](#)

Documentation Details: 6.2.2.b. Regulation Amendment 1-2019 resulted in a reduction of required parking by 25% for "retail, commercial sales and services, or personal service businesses" from 1 space for each 150sf of floor area to 1 space for each 200sf of floor area; and the creation of a Quick-Service Restaurant category that effectively reduced the parking requirement for that category by a third from 1 space for each 100sf of floor area to 1 space for each 150sf of floor area. 6.2.2.b. Regulation Amendment 3-2021 resulted in a reduction of required parking for multi-family residential dwellings from 2.5 spaces for each dwelling unit regardless of size or type to 1 space for studios, 1.5 spaces for one-bedroom apartments, and 2 spaces for two-bedroom apartments. The adoption of the regulations above reduced the amount of required parking for several uses which results in smaller parking lots and less asphalt and less impervious surface.

Partners: Planning and Zoning

Additional Information: 6.2.2.b Darien previously reduced the required size of a parking stall by 10% from 9'X20' to 9'X18' in October of 2017; and has had a Joint Parking reduction regulation for mixed-used developments since 2016.

(Note: FY21 report is included as the FY22 report is not yet available). 9.4.2 (C): Report from City Carting shows that 39.07 tons of food scraps were recycled in FY22; this data will be submitted in the FY22 Annual Municipal Recycling Report to CT DEEP. 9.4.2 (D): Summary of meeting between Carolyn Bayne, Darien Advisory Committee on Sustainability Chair, and David Knauf, Darien Health Director, on July 20, 2022 to discuss Darien's food scrap program and to ensure that there is a balance between the goals of the program and public health concerns. 9.4.2 (E): Screenshot of the Darien Department of Public Works Recycling Center website which includes a link to the town's Food Scrap

Recycling Guide. 9.4.2 (F): Screenshot of the Darien Advisory Committee on Sustainability's website which includes a link to the town's Food Scrap Recycling Guide. 9.4.2 (G): This guide explains how Darien's Food Scrap Recycling Program works. It is included in food scrap collection kits sold to residents, is available through the Department of Public Works office and is available online at darienct.gov (both Department of Public Works and Advisory Committee on Sustainability). 9.4.2 (H): Brochure that accompanies every new and renewed permit for the Recycling Center; shows that there is a drop-off for food scraps. This brochure is also available in the Public Works office and on the town website: http://www.darienct.gov/filestorage/28565/28567/29165/29202/PublicWorks_Trifold_Rev.2022-5.pdf 9.4.2 (I): Insert mailed with annual tax bills, June 2022. Describes everything a resident needs to know to participate in the food scrap program. These inserts are also available in the Public Works office and Darien Health Department. 9.4.2 (J): Parks & Rec Spring/Summer 2022 catalog mailed to all Darien residences; the inside of the back cover (p. 25) includes a small poster highlighting the food scrap program. 9.4.2 (K): Article in local paper discussing the first year of Darien's food scrap program. 9.4.2 (L): Article in local magazine delivered to more than half the homes in Darien. 9.4.2 (M): Screenshot of a sample social media post (from Twitter) publicizing the food scrap program and directing residents to the town's website for more information. The program is regularly publicized on Facebook, Twitter, and Instagram. 9.4.2 (N): Poster created for the Advisory Committee on Sustainability's participation in the Darien Nature Center's "Spring into Nature" Earth Day event, held in 2021 and 2022. A table was set up where committee members could discuss various ways to compost food waste: the town's drop-off program, home composting, and a fee-based home pickup service. Event participants were able to see and feel actual compost and examine a couple of different types of home composting bins.

Partners: 9.4.1 (food waste prevention campaign): None 9.4.2 (food scraps recovery program): In 2018 Darien was awarded an Innovation Grant (\$8,460) from Recycle CT to launch the food scrap program; when setting up our program we also received lots of advice and support (sourcing of materials, templates, etc.) from members of in Scarsdale, New York's Sustainability Committee. More recently, the Darien Pollinator Pathway has helped publicize our program by purchasing food scrap kits to raffle off at events, and the Darien Beautification Commission helped purchase compost and supplied volunteers for our compost giveaway in April 2022.

Additional Information: Though Darien's food waste prevention campaign has been targeted mostly to adult residents, which is the target sector for 9.4.1, there is potential to expand it to two important populations: school-aged children and restaurants. As we also explore the possibility of expanding the food scrap recycling program to these sectors, we would simultaneously provide information, strategies and justification for reducing food waste. Some very preliminary research has been done; the hope is to continue learning from others who have successfully implemented food waste prevention and recovery campaigns in these sectors and to begin to identify partners within our own community who can help. Note: The survey at "The Royle", mentioned in 9.4.2 (A) is discussed further in Action Item 1.1D. A compost "giveaway" was held over two Saturdays in April 2022 to demonstrate to residents the benefits of composting food waste. 20 cubic yards of compost were purchased from New Milford Farms and residents - whether they participate in the program or not - were invited to take home a few buckets. It was a way of thanking program participants and hopefully enticing others to consider recycling their food scraps. More on this giveaway is found in Action 8.1. The success of Darien's Food Scrap Recycling Program spurred interest in neighboring communities; over the past 3-1/2 years we have had inquiries from several and have had detailed discussions and conducted tours with some of them. We are always available and happy to discuss this program! A bulletin board at Cherry Lawn Community Gardens is a convenient location to share gardening tips. 10.4.8. Schematic posted at Cherry Lawn Community Gardens shows the location of all plots, location of shed, etc.. This was posted in 2018 but is still current.

Partners: 10.4 (promote community growing spaces): Cherry Lawn Community Gardens was established by the Darien Community Association Garden Club in the early 1970's, but is now self-administered by the Cherry Lawn Garden Coordinating Committee (members listed in document 10.4.2, above). Cherry Lawn Community Gardens is located on municipal property at Cherry Lawn Park. The program is co-sponsored by the Darien Parks & Recreation Department, which helps with maintenance, program promotion, and conducts annual mailings for renewals.

Additional Information: Cherry Lawn Community Gardens is a well-known, popular, program in Darien, CT with 60 garden plots of varying sizes. Only organic methods are permitted and tilling is done by hand. There are tools available for gardeners to use, including wheelbarrows. One plot is dedicated to bee hives which help pollinate the plants in the gardens, as well as plants within five miles. Current gardeners have the option to renew each year, and although there is currently a waiting list of 30 residents, there are new gardeners each year (5 in 2021 and 3+ in 2022). Surplus produce is harvested and donated to Person-to-Person (local nonprofit), and the Mather Center (senior center).

11. Healthy, Efficient and Diverse Housing

11.2 Grow Sustainable and Affordable Housing Options

20 Points

Approved Information: 11.2.2: Increase your municipality's affordable housing, as compared to a baseline year within the past 5 years. (10 Points) 11.2.3: Commit dedicated funding to affordable housing development. (10 Points)

PDF: [11.2.3 CONFIRMATION EMAIL FROM TOWN ADMINISTRATOR.PDF](#)

Documentation Details: 11.2.2 On page two of each Affordable Housing Appeals List, the row for Darien is highlighted. The 2020 Appeals List (baseline year) indicates a percent affordable of 3.56%. The 2021 Appeals List (most current year) indicates a percent affordable of 3.97%. That is an increase of 0.41% which qualifies the town for 10 points in this category. 11.2.3 The Town of Darien transferred \$363,851.46 to the Darien Housing Authority on 08/21/2019 allocated to the construction of 55-unit affordable housing development called The Royle at 719 Boston Post Road in Darien.

11.3 Implement Policy for Sustainable, Diverse Housing Options

20 Points

Approved Information: 11.3.4 At least 10% of all housing units in developments of more than 5 units are required to be affordable. (20 Points)

Supporting Documentation:

PDF: [DARIEN INCLUSIONARY ZONING REGULATIONS](#)

Documentation Details: Page V-36 Section 582, Applicability: Applies to all zones that allow dwelling units which is the vast majority of the zoning districts in town. Section 583, Affordable Requirements: When creating FOUR or more dwelling units, 14% must be affordable to those making equal to or less than 80% of the State Median Income using the maximum housing payment calculations outlined in Section 8-30g-8 of the Regulations of Connecticut State Agencies (Section 584). Page V-37 Section 585, Incentives: There is a 50% density bonus and other zoning bonuses for providing more than the minimum number of affordable units. However, this does not require at least 20% of the units to be affordable, so we are basing our qualification for this action on the 14% requirement noted above.

Partners for the short term emergency shelters include the Darien Fire and Police Departments, the Darien Board of Education, the Dept of Human Services and the First Selectman. Beyond our town, partners include the Red Cross and Dept of Homeland Security and neighboring towns. The latter have agreed to provide supplementary beds/shelter.

13. Innovative Strategies and Practices

13.1 Implement Your Own Sustainability Action

25 Points

Approved Information: 13.1A: Innovative Sustainability Action: Develop and implement a Buddy Program to enhance and expand Darien Parks and Recreation youth program offerings.(15 points). Implemented in connection with 1.1B Optimize for Equity. 13.1B: Innovative Sustainability Action: Slow Down in Town (15 points)

Partners: 13.1A: The Parks and Recreation Department with input from the Darien Youth Director collaborated with multiple partners to identify and implement the Buddy Programs, as part of the Town's general youth offerings: Project Buddy Up, The Darien Depot, Noroton Presbyterian Church, and A Better Chance_Darien have assisted to develop a network of volunteers, define their roles and responsibilities and provide initial training. These efforts are ongoing and coordinated with the town and staff who schedule and implement the youth programs. 13.1B: Slow Down in Town: This program was a collaboration among the Police Department, the Board of Selectmen, the Police Commission, Post 53 (town ambulance service), the Representative Town Meeting and volunteers (e.g. school children).

Additional Information: The All-Abilities Buddy Program, offered through the Parks and Recreation Department, in partnership with Project Buddy Up and other community organizations, addresses the social and emotional wellbeing of children by expanding access to recreational programs. The addition of a teen buddy to select Parks and Rec offerings expands the reach of these offerings and enables inclusivity without separation. Furthermore, the program provides a unique opportunity for older youth to volunteer, expand their social interaction skills, develop other valuable skills, and make a difference in the lives of others in their community.
