Watershed Health Pledge Posted on Rocky Hill's Facebook (attached) Approved in Spring 2022 On March 14, 2022, Rocky Hill's Cora J Belden library hosted Ryan O'Donnell from the CT River Conservancy for a talk on Connecticut Watersheds. Ryan talked about watersheds, that they are a complex system and somewhat difficult to define. He talked about how they are interconnected, so small streams and brooks flow in the Connecticut River and can impact the overall health of the river. He talked about how the CT River Conservancy does periodic water testing in order to monitor the health of the river as well.

Partners: CT River Conservancy Rocky Hill Cora J Belden Library

Additional Information: Kelsey Wentling from the CT River Conservancy discussed two invasive and destructive aquatic plants that are taking over the CT River: Hydrilla and European Water Chestnut. She shared images of these plants in the CT River, discussed their distinctive features, their growing season and their propagation pattern. She discussed efforts by the CT River Conservancy to track the spread of these plants through an online website reporting system, as well as the Conservancies efforts to suppress these plants through various means, including bariatric plastic mats placed on the floor of the river to prevent plant growth. She also discussed new state and federal efforts to bring attention to this problem, study its impact, and create funding to find solutions. Resources: Stopping Invasive Species:

Additional Information: Webinar Description: Loss of habitat is one of the biggest issues contributing to the decline of pollinators. With the loss of prairies, forests, and other natural areas to development and agricultural use, pollinators are having a harder time finding the resources they need. Emily May from the Xerces Society presented to educate the public on how they can help - learn how easy it is to turn your backyard into a space for pollinators to thrive. With simple steps like adding certain native plants, to limiting pesticide use, you can help preserve and conserve our world's essential pollinator populations. Presenter: Emily May, Xerces Society Attendance: 35 Here is the link for the recording of our Zoom session with Emily May from Xerces Society in April 2022 on Planting for Pollinators. Description: It's the age-old adage: "the greenest house is the one already built." Historic houses are inherently sustainable, with features built to capitalize on using and retaining energy. Many of these houses can also be updated in appropriate ways to make them even more efficient, some of which you can do yourself. Bring your questions and join our panel of professionals from Preservation Connecticut and the State Historic Preservation Office as we share helpful tips and tricks to help owners save money on their bills, minimize impacts to the environment, and love their home- all at the same time! Registration required to receive the Zoom link. 5 Points

Approved Information: 7.1.1 Track Energy Use in Municipal and Board of Education Buildings (5 points)

Supporting Documentation:

EXCEL: [7.1.1 ROCKY HILL ENERGYSTAR PORTFOLIO MANAGER BENCHMARKING.XLSX](#)

Partners: 7.1.1 Rocky Hill has been tracking energy use since 2014 for municipal buildings via Facility Dude software, however schools were not tracked. This year, Pamela Roach (Rocky Hill's Consultant) and Mona McKim, Director of Finance worked with Amy Thompson at UCONN through Sustainable CT to be sure all municipal buildings were being tracked, to gather addresses for schools, provide CNG account numbers for both municipal buildings and schools, and verified that town/school buildings use natural gas and do not use oil or propane. Pam and Mona held several zoom meetings with Amy and her assistant Jin, Andre in an effort to collaborate to be sure data entered was as complete as possible. Amy and Jin entered data into ENERGYSTAR Portfolio Manager for Rocky Hill. Additionally, Rocky Hill is scheduling a training session on how to use the energy portfolio: navigating the portfolio, updating manual data going forward and running new quarterly reports going forward.
