

# SOCIAL DETERMINANTS FRAMEWORK (River Model)

The following graphic illustrates another way to visualize the continuum of upstream, midstream, and downstream actions needed to eliminate the root causes of inequities, with a few sample strategies provided.

## UPSTREAM:

Measure the impact of decisions that affect communities most burdened by inequities. create strategies to decrease negative impact. Improve decision-making structures towards being more inclusive of community voice.

**MIDSTREAM:** Improve safety and create a culturally responsive school environment. Build school-to-work strategies. *(Social determinants of health)*

## DOWNSTREAM:

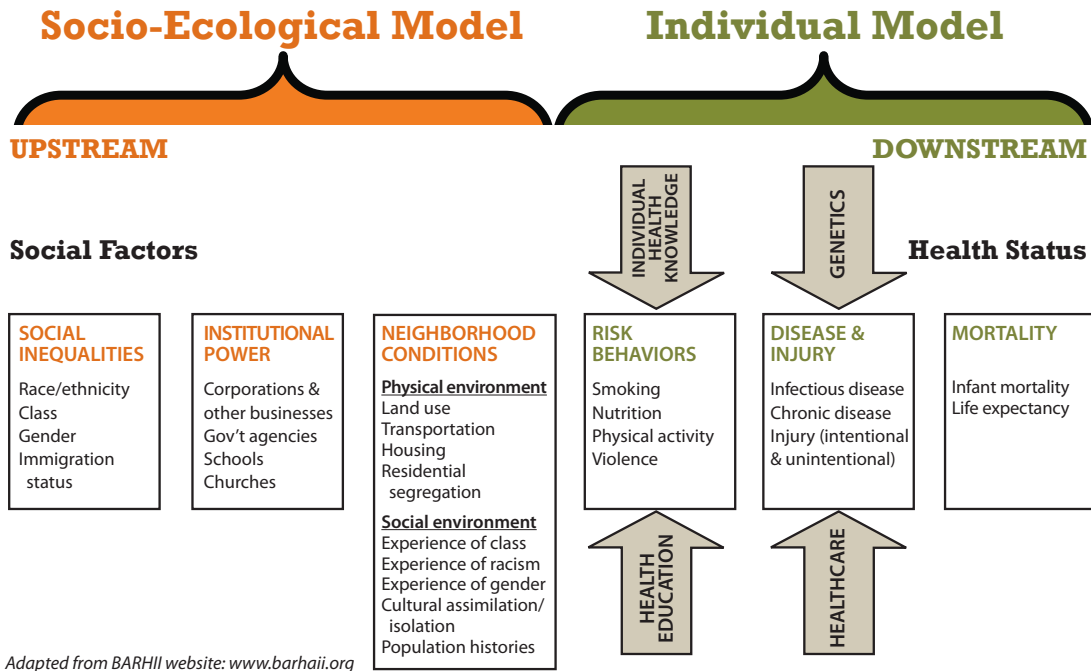

Increase access to health and educational services for Latino youth.
