Timeframe for Credit Guidance

1. New vs. Rolling Action Credit

Effective 2021, Sustainable CT is simplifying its “credit for past action” framework. Actions can either be “New” or considered for “Rolling Credit.”

- **New Action Credit.** Any action completed within the past three years (from January 1 of the year seeking certification) is eligible to earn potential certification points.
  - For 2021 certification, this means any action completed on or after January 1, 2018.
  - If you are applying for recertification in your year of expiration (i.e., you have been certified for three years), you may not claim New Action Credit for items that previously received credit.

- **Rolling Credit.** For any action older than three years (from January 1 of the year seeking certification), you must demonstrate ongoing, currently relevant, and meaningful impact in your community to be considered for certification points.
  - For 2021 certification, this means any action completed on or before December 31, 2017.
  - If you are applying for recertification in your year of expiration (i.e., you have been certified for three years), you must apply for Rolling Action Credit for any item that previously received credit, even if it was completed within the past three years.

2. Examples: When to Apply for New vs. Rolling

- **Example 1:** You completed an equity toolkit in 2018, it was approved, and your municipality achieved bronze-level certification in 2018. You may not seek New Action Credit for submitting the same toolkit in pursuing recertification in 2021, since this is the year your certification expires (certification lasts three years).

- **Example 2:** You completed an equity toolkit in 2019, it was approved, and your municipality achieved bronze-level certification in 2019. You may seek New Action Credit for submitting the same toolkit in pursuing silver-level certification in 2021, since this is not the year your certification expires.

- **Example 3:** You created an inventory in 2018, it was approved, and your municipality achieved bronze-level certification in 2018. You must seeking Rolling Credit for submitting the inventory in 2021, even though it was completed within the past three years, because you are applying for recertification in your year of expiration and you previously received credit for the inventory.

3. Completing the “Timeframe for Credit” box

For every action your municipality submits, you must complete the “Timeframe for Credit” box on your Municipal Dashboard as part of your application. For each submission, indicate whether you are applying for New or Rolling action credit.

- 2.2.1, New Action Credit, Participate in sustainable procurement training, 11/19/20
- 3.5.1, Rolling Credit, Create a natural resources inventory, inventory reviewed 11/1/20 by NAME (Town Planner), original 5/6/15 inventory updated 12/7/20 (original inventory plus supplemental updates submitted under “supporting documentation”)
- 6.1.3, Rolling Credit, Implement a complete streets policy, policy reviewed 1/11/21 by Complete Street Team, original policy adopted 6/13/17, no updates needed (policy still current and relevant)
4. What to Submit

Information on what to submit in the “Timeframe for Credit” box on your application is provided below. Each Sustainable CT action is labeled by action type and as being eligible for either New Action Credit and Rolling Credit, or for New Action Credit only.

<table>
<thead>
<tr>
<th>Action Types</th>
<th>What to Submit: New Action Credit* (Completed within the Past Three Years)</th>
<th>What to Submit: Rolling Credit** (Completed More than Three Years Ago)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Events, Meetings, Trainings</td>
<td>Date occurred</td>
<td>Not eligible for Rolling Credit</td>
</tr>
<tr>
<td>Implementation Projects</td>
<td>Date created/ completed</td>
<td>Not eligible for Rolling Credit</td>
</tr>
<tr>
<td>Data Tracking/Benchmarking and Meeting Performance Metrics</td>
<td>Data/metrics according to the specific action write-up</td>
<td>Not eligible for Rolling Credit</td>
</tr>
<tr>
<td>Outreach, Education, Programs, Campaigns, Funding, and Recognition/Designation in External Program</td>
<td>Date occurred</td>
<td>Date and description of new activities within the past 3 years, or for recognition/designation in an external program, proof of current recognition/designation within the past 3 years</td>
</tr>
<tr>
<td>Websites, Maps, Inventories, Checklists, Assessment, Plans, Ordinances, Policies, Regulations and Resolutions</td>
<td>Date created/ completed</td>
<td>Date of review of the materials, name(s) and title(s) of individual(s) or group who performed it, and if no updates are being submitted, a statement that the information is still current and relevant</td>
</tr>
<tr>
<td>Committee/Task Force/Position Creation</td>
<td>Date created</td>
<td>Dates meeting occurred (minimum once per year over each of past 3 years) or position occupied within the past 3 years</td>
</tr>
</tbody>
</table>

If you are applying for recertification in your year of expiration (i.e., you have been certified for three years), even if an item was completed within the past three years (from January 1 of the year seeking certification):

*You may not claim New Action Credit for items that previously received credit.

**You must claim Rolling Credit for items that previously received credit in a certification cycle, even if they were completed less 3 years ago.

Where multiple dates are relevant, at a minimum, please submit the most recent date.
5. New Action Credit Only

The actions listed below are eligible for New Action Credit only and must have been completed within the past 3 years (from January 1 of the year seeking certification). If you are applying for recertification in your year of expiration, you may not claim New Action Credit for items that received credit in a previous certification cycle (see 1. New vs. Rolling Action Credit above for examples). However, your municipality may receive points again under the same Sustainable CT action for new work (e.g., you previously received points for installing on electric vehicle charging station but have now installed another within the past three years).

1.1 Optimize for Equity: Complete the Sustainable CT Equity Toolkit.
1.2 Participate in Equity Training: Attend Sustainable CT-provided training series on equity.
2.1 Support Redevelopment of Brownfield Sites:
   • 2.1.3: Engage community and prioritize brownfield sites for redevelopment.
   • 2.1.4: Prepare a grant proposal for site assessment or clean-up.
   • 2.1.5: Collection additional information for one or more priority sites.
   • 2.1.6: Engage community and identify potential reuse options.
   • 2.1.8: Remediate and redevelop a brownfield site.
2.2 Implement Sustainable Purchasing
   • 2.2.1: Have municipal officials/staff participate in a sustainable procurement training.
2.4 Provide Resources and Supports to Local Businesses
   • 2.4.1: Host business roundtables with municipal officials/staff.
   • 2.4.3: Invite businesses to participate in events to build community recognition.
2.6 Participate in and Promote C-PACE Program
   • 2.6.1: Pass a municipal resolution to opt-in to C-PACE.
   • 2.6.3: Earn credit for C-PACE projects undertaking clean energy improvements.
3.1 Provide Watershed Education
   • 3.1.1b: Implement a signage program that highlights key watershed issues.
3.3 Engage in Watershed Protection and Restoration
   • 3.3.1: Complete a priority project as outlined in your Watershed Action Plan.
3.7 Provide Education on Water Conservation
   • 3.7.1a: Sponsor or host a water conservation education workshop.
3.8 Implement Low Impact Development
   • 3.8.1b: Host an educational event on stormwater issues and LID.
   • 3.8.3a: Develop and implement a LID demonstration project.
   • 3.8.3d: Reduce directly connected impervious area compared to a baseline year.
3.10 Facilitate Invasive Species Education and Management
   • 3.10.3b: Host a workshop for residents about invasive species and removal processes.
3.12 Enhance Pollinator Pathways
   • 3.12.2: Create pollinator gardens and educate residents about pollinators.
4.2 Support Arts and Creative Culture
   • 4.2.11c: Develop workshops for artists, art administrators, and arts presenters/curators.
4.4 Provide an Arts and Culture Program for Youth
   • 4.4.1b: Convene a roundtable discussion to create an arts and culture program for youth.
   • 4.4.2: Have staff attend a professional development session.
5.3 Develop Agriculture-Friendly Practices
   • 5.3.4: Hold a farmer forum to identify critical needs or issues for agriculture.
6.1 Implement Complete Streets
   • 6.1.2: Have municipal officials/staff participate in a Complete Streets training.
   • 6.1.6: Implement projects that expand safe and active transportation networks.
6.4 Support Zero Emission Vehicle Deployment
   • 6.4.1: Host a ZEV event/workshop with a community partner or third party.
   • 6.4.2: Have municipal officials/staff participate in a vehicle electrification training.
6.4.3: Replace non-emergency passenger vehicles with ZEVs or generic hybrids.
6.4.5: Host electric vehicle charging stations for public use on municipal property.

7.1 Benchmark and Track Energy Use
- 7.1.1: Maintain data in ENERGY STAR Portfolio Manager for building energy use.
- 7.1.2: Maintain data in ENERGY STAR Portfolio Manager for water treatment energy use.

7.2 Reduce Energy Across All Municipal Buildings
- 7.2.1a: Complete Sustainable CT action 7.1.1.
- 7.2.1b: Achieve energy use intensity reductions for buildings in your benchmarking portfolio.
- 7.2.2a: Complete Sustainable CT action 7.1.2.

7.4 Increase Use of Renewable Energy in Municipal Buildings
- 7.4.1: Complete Sustainable CT action 7.1.1.
- 7.4.2: Power municipal buildings (including Board of Education).

7.6 Install Efficient Exterior Lighting
- 7.6.2a: If a utility owns your streetlights, initiate the conversion process with the utility.
- 7.6.2b: If you own your own streetlights, replace lights with the most efficient bulbs.
- 7.6.3: Convert municipal exterior decorative lighting and exterior park lighting to LEDs.

7.8 Benchmark Energy and Water Use for Multifamily Housing
- 7.8.2: Track multifamily buildings that have had their energy and water use benchmarked.

8.1 Hold a Sustainability Event
- 8.1.1a: Hold a sustainability event.
- 8.1.1b: Provide municipal support for the event.
- 8.1.1c: Track the number of event attendees and identify highlights and next steps.

8.3 Train Municipal Representatives
- 8.3.1: Send commissioners to a training that is relevant to their commission.

8.4 Support Community Match Fund (CMF) Project and Civic Engagement
- 8.4.1: Complete/support a Community Match Fund project in your municipality.

9.1 Report Materials Management Data and Reduce Waste
- 9.1.1: Identify staff responsible for collecting waste data/reporting data to CT DEEP.
- 9.1.2: Reduce residential solid waste generation per capita.

10.2 Conduct Health Impact Assessments
- 10.2.1: Have officials/staff participate in training on performing health impact assessments.

11.1 Design and Implement an Affordable Housing Plan
- 11.1.2: Create, expand or maintain your community’s housing data profile.

11.2 Grow Sustainable and Affordable Housing options
- 11.2.1: Identify the current percentage of affordable housing in the community.
- 11.2.2: Increase affordable housing as compared to a baseline year.

13.1 Innovative Strategies and Practices
- 13.1.1: Implement a sustainability action not listed on the Sustainable CT actions list.
